# Wirral Ways & Happy Days

by Ian Kenyon The Huyton Poet

The Huyton Poet is Ian Kenyon, an ex Wirralian that has at the age of 59 taken to performing Stand Up comedy and also appearing on variety shows performing his poetry in a sort of Pam Ayres meets Peter Kaye fashion he has had over 400 different poems broadcast on BBC Radio Merseyside as well as having many of them published in local and national press. Ian comes up with pretty much instant poems, when asked to compose a few verses for "Love Wirral" he was back with this epic in just a couple of hours (and he says he took that long because he stopped for tea). Ian is available to perform his poetry sets and he also provides a Personalised Poetry service where you can get just the poem for any occasion. You can contact him by email at [thehuytonpoet@gmail.com](mailto:thehuytonpoet@gmail.com) and you can have a sneak preview of him working at:

## **A poem based on childhood memories of my time living in Rock Ferry.**

*I was taught about Wirral Peninsular  
When I was just a lad at school  
Three sides surrounded by water  
The teacher made it sound quite cool  
I was born and raised in Rock ferry  
Just on the boundary of poor  
We'd spend our days down by the river  
We called it "The New Ferry Shore"  
Occasional trips to New ferry Baths  
But our financial status was grim  
We would search for perimeter weak spots  
And that's where we all just bunked in  
Port Sunlight Village that was one of best  
With the boating lake there and stuff  
The Lady Lever Gallery there  
We just couldn't get enough  
We played war on the war memorial  
It was a brilliant place to play  
I don't know if kids still do that now  
Things are so different today  
My mum was a frustrated traveller  
And when some spare cash could be found  
She would haul us all on to a Crosville bus  
And we'd travel the Wirral round  
Burton and Neston and Heswall  
Sometimes Parkgate for the day  
I told the conductor I was only 4  
So mum wouldn't have to pay*

*Some days we'd jump on the 41 bus  
We were Eastham Ferry bound  
The woods, the bear pit, the riverside  
The whole of the day was just sound  
Then home past the Power Station  
Further on down we'd pass Stork  
I doubt if I could manage it now  
It seems such a long way to walk  
Came out at the end of The Causeway  
Where it joins with the New Chester Road  
Lorries were thundering everywhere  
Each one with a different load  
I'm getting a bit sentimental now  
My lip it is starting to quiver  
Then back down to earth with heavy bump  
When you get to the "Stinky River"*

# BROMBOROUGH DOCK 1940

The Bromborough Dock Ju88 incident Oct. 8th 1940

On the 8th October 1940, a German Junkers Ju88 bomber aircraft arrived in the skies above Merseyside on a mission to bomb the Rootes aircraft factory at Speke and photograph the results of its attack. The aircraft was loaded with four 250kg bombs. It had flown from Caen in France over Southampton, Droitwich, Ellesmere Port and finally to Speke, arriving in the target area around 4pm.

However, before it could reach its target, the bomber was spotted by Czech pilots flying three Hurricanes of yellow section No.312 (Czech) Squadron based at Speke. They had just taken off on a routine mission to patrol the skies above Hoylake. The Hurricanes attacked the Junkers aircraft, which fired back - causing some damage to the Hurricanes.

Eventually, the Ju88's starboard engine was hit and damaged. The pilot, 26 year old Oberleutnant Helmuth Bruckmann, jettisoned two of his bombs into the River Mersey. With two bombs still in their racks, the Ju88 was seen gliding down towards Bromborough Dock where the pilot made a forced landing with the undercarriage retracted. The Ju88 slid across the field for thirty yards until it came to a rest near to an anti-aircraft gun post with the port engine ripped out of its mounting. One of the bombs was torn from its rack and was found lying in the field near to the aircraft along with a fully inflated dinghy.

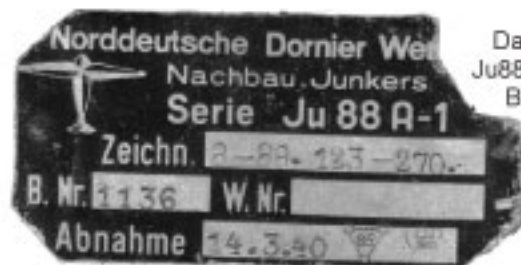

A bullet wound to the head had killed the observer, 24 year old Leutnant (Pilot Officer) Herbert Schlegel. The pilot, Oberleutnant Brückmann was uninjured but 37 year old Sonderfuhrer Horst Lehmann the air gunner and 26 year old Unteroffizierer Helmuth Weth wireless operator were injured.

The three Hurricanes landed back at Speke, the whole sortie had taken just eleven minutes.

# Protecting Your Home Against Crime

Homes with no security measures in place are 5 times more likely to be burgled than those with simple security measures. Good window locks and strong deadlocks can make a big difference. Find out about a few effective steps you can take to secure your home.

## Top 10 tips: things you can do to prevent a burglary!

Taking just a few simple easy steps can make a very big difference in keeping your home safe from burglary.

### Here are a few tips:

- lock all your doors and windows every time you leave your home, even when you're just out in the garden
- hide all keys, including car keys, out of sight and away from easy reach through the letterbox
- install a visual burglar alarm
- install good outside lighting
- leave radios or lights on in your home on a timer
- make sure the fences around your garden are in good condition and secure
- store all valuable items (including passports, driving licences and bank statements) out of view
- hide cash and wallets away
- secure bikes at home by locking them to an immovable object inside a locked shed or garage
- keep ladders and tools stored away; don't leave them outside where they could be used to break into your home

# DOVECOTE NURSERIES

Perennials • Shrubs • Alpines • Hanging Baskets  
Herbs • Bedding & Vegetable Plants

## Summer is on its way...

Now is the perfect time to fill pots, baskets and borders. Once the risk of overnight frosts has passed, you can safely plant out tender bedding plants and half-hardy perennials, such as geraniums, fuchsias, osteospermums, argyranthemums, etc. Hardy perennials and shrubs can of course be planted now but keep them well watered during dry spells until they are established.

Here at Dovecote we stock an extensive range of reasonably priced hardy perennials and this year we have a select range of more unusual varieties.

Vegetable gardening has become extremely popular and we have a good range of home grown vegetable plants and herbs to choose from.

# SO YOU THINK YOU CAN'T PAINT?

Well I say you can! Says Keith Fenwick – sky TV's 'ART DOCTOR'

In the previous issue, I promised you a painting based on the letters of the alphabet. Just follow the stages shown and paint this simple yet pleasing landscape. You can do it if you want to!

Familiarise yourself with the composition by drawing a stretched letter 'M' to represent the mountain range. Draw a horizontal line to represent the waterline. A letter 'V' on its side represents the land area. A series of letter 'O's represents the tree grouping.

Join the land area with a flattened letter 'C' to represent the shoreline. You have now familiarised yourself with the composition for this landscape.

## WHAT YOU WILL NEED

**Brushes:** Size 3 rigger, 3/4" or 1" flat, size 14 round, 1 1/2" hake

**Paints:** Tube colours, Paynes grey, cobalt blue, alizarin crimson, raw sienna, burnt sienna, any light yellow, sap green

**Watercolour paper:** 140 lb rough - A4 size, Palette - white dinner plate

**Supporting:** 4B pencil, 2 water pots, absorbent toilet roll

## STAGE ONE - Sky and Mountains

With a large brush loaded with a wet cobalt blue wash, paint the sky using horizontal strokes, applying paint from left to right and back again to cover the paper.

I have kept the sky very simple. Use a hair dryer to dry the wash.

Apply a weak raw sienna wash to paint the mountains. Whilst still wet, use the round brush loaded with a cobalt blue/alizarin crimson mix to paint the mountain peaks. The brush strokes should flow downwards to follow the structure of the mountains. Finally, apply a little burnt sienna to the base of the mountains.

For brochures: Tel: 0151 327 1601 Email: [fenwickart@sky.com](mailto:fenwickart@sky.com) Web: [www.keithfenwick.co.uk](http://www.keithfenwick.co.uk)

## **STAGE TWO - Land and Shoreline**

Remove the masking tape slowly to avoid tearing the paper, revealing a horizontal line to represent the water level.

Use the 3/4" flat brush loaded with a mix of cadmium yellow/sap green to paint the land area representing a letter 'V' on its side. To paint the shore use a raw sienna wash and brush strokes representing a flattened letter 'C'. Finally brush in a little burnt sienna to add variation. Edge the land area by touching the paper with the edge of the 3/4" flat brush loaded with a Payne's grey/burnt sienna mix.

## **STAGE THREE - Trees and Water**

Use the side of the round brush loaded with a cadmium yellow/sap green mix to paint in the undercoat for the tree grouping. Follow on with the same mix with Payne's grey added to paint in darker colour to create depth on the left and also below each tree. Use the rigger brush and the same mixes to shape the trees to make them look more realistic.

The side of the round brush loaded with a weak cobalt blue was used to paint the lake. Your brush strokes must be horizontal as water is always level. Some Payne's grey was added to the mix to darken the water on the left.

## **FINAL STAGE - Adding the finishing touches**

The rigger brush loaded with a Payne's grey/burnt sienna mix was used to add the fence. Note the distance between the fence posts should be approx. twice the height of the fence - square fences are out!

Using the flat brush some rocks were painted in using a Payne's grey/alizarin crimson mix. An absorbent tissue shaped to a point was used to remove paint from the top of the rocks representing light and the rigger used to wiggle in a few shadows on the shore.

Note - the boat that has been added is travelling into the shore leading the viewer's eye into the painting.

This is a simple landscape that my students find no problems completing. When mounted and framed it makes a pleasing addition to your wall. Painting is not a gift - its more perspiration rather than inspiration. You can do it with sympathetic instruction. Why not join Keith on one of his courses in the Lake District this year. He has been running courses for over 30 years with many students returning year after year.

Mental health problems can affect us all and are very common. It is estimated that a quarter of the population (1 in 4 people) will experience some type of mental health problem in any one year. Anxiety, Depression and other difficulties, like worrying – whether it be about health, going out, meeting people or worrying about worrying can make life miserable, and can affect how we feel, think and behave.

Anxiety and Depression are the most frequently experienced, affecting about 1 in 10 of us at any one time. Common mental health problems can and do affect our quality of life.

Other problems that are often experienced include Panic Disorder, Generalised Anxiety Disorder, Obsessive Compulsive Disorder (OCD), Social Anxiety, Health Anxiety, and Trauma (also referred to as Post Traumatic Stress Disorder or PTSD), and are often diagnosed by your GP.

It can also be common for stigma and discrimination to still exist towards people experiencing mental health problems, but it is very important to remember that they are common and not signs of personal weakness.

If you feel you are experiencing any of these problems, we may be able to help.

Mersey Psychotherapies is a Wirral based psychotherapy service with a team of five experienced and highly qualified therapists who offer Cognitive Behavioural Therapy (CBT) and/or Eye Movement Desensitisation and Reprocessing (EMDR) therapy.

Current research and evidence indicates CBT and EMDR are effective therapies for the treatment of common mental health issues and are recommended in national guidelines including the National Institute for Clinical Excellence (NICE), followed by the NHS.

If you would like to know more, about CBT and EMDR, or about our team, please visit our website. We offer a confidential and personal service, and are based in Birkenhead. Or speak to one of our team directly for further information. # DID YOU KNOW?

## WIRRAL'S OLDEST BUILDINGS

The majority of the Wirral Peninsula's oldest buildings are made from the area's local, red, sandstone and are most prominent in the area's smaller villages such as Caldy, Saughall Massey, Brimstage and Raby.

Several of the area's 215 churches have their roots in medieval times with St Hilary's Church in Wallasey and St Bridget's Church in West Kirby both vying for oldest church in the area, both of which have their origins in the 11th century.

The peninsula's oldest pub is reputedly that of the Wheatsheaf Pub in Raby, which dates back to 1611.

The peninsula's oldest house is a large, two storey, stone built house situated on Limekiln Road, Wallasey which dates back to around 1627.

Although the oldest building on the peninsula is Birkenhead Priory, built in 1150, Birkenhead is not the oldest town, that honour goes to Wallasey which was already an established settlement when mentioned in the Domesday Book of 1086. However, some have suggested that the village of Eastham is the oldest permanently inhabited area of the peninsula owing to the site of an aged yew tree that stands in the grounds of the village's St Mary's church, which is reported to be around 1,500 years old.

But the peninsula's record breaker has to be Greasby, where archaeologists have been able to define evidence of human habitation dating back to 7000BC, when the peninsula was inhabited by it's native people the Cornovii Tribe.

The United Kingdom's oldest brick built lighthouse is situated on the Wirral Peninsula, at Leasowe shore. It was built in 1763 by the Liverpool Corporation Docks.

Brimstage Hall situated in the picturesque village of the same name was apparently built between the 12th and 14th century, making it one of the peninsula's oldest buildings and certainly the oldest manorial residence in the area.

# High Intensity Training

## High Intensity Training

H.I.T is exactly what it says high intensity, it is generally also low volume. This means you can get all the work done in much less time than you will be used to. You do not need to perform multiple sets as if you perform the exercises correctly 1 set to complete failure is all you will need! With H.I.T the emphasis is on the negative part of the lift as well as the positive eg the lowering phase of a bicep curl. You should always keep the muscle under constant tension so there is no momentum involved in the lifting, a good way to do this is to count to 8 or 10 seconds raising the bar and do the same lowering the bar. You can continue with a split training programme training 1 or 2 muscle groups per day or you can perform an all over body routine, just ensure that each muscle gets 5 – 7 days rest before you train it again.

## A Typical H.I.T Programme

All exercises are performed with 1 warm up set then 1 set to failure with maximum weight for the desired repetitions \* you also only need 30 seconds rest between each exercise.

### Monday - Chest & Biceps

Chest Press \* 4 reps  
Incline dumbbell press \* 4 reps  
Incline Fly's \* 6 – 8 reps  
Cable Crossover \* 6 – 8 reps  
Barbell Curl \* 4 reps  
Hammer Curl \* 6 – 8 reps

*(typical workout time 20 mins)*

### Wednesday - Legs & shoulders

Squats \* 4 reps  
Leg extensions \* 6 – 8 reps  
Leg Curls \* 6 – 8 reps

Calf Raise \* 6 – 8 reps  
Military shoulder press \* 4 reps  
Lateral Raise \* 6 – 8 reps  
Shrugs \* 6- 8 reps

*(typical workout time 25 mins)*

### Friday - Back & Triceps

Bent over Row \* 4 reps  
Under arm lat pulldown \* 6 – 8 reps  
Seated Row \* 6 – 8 reps  
Close grip bench press \* 4 reps  
Tricep extensions \* 6 – 8 reps

*(typical workout time 20 mins)*

If done correctly H.I.T training is a great way to build muscle & burn fat, it's also great for getting over plateau's if you're at a sticking point then try switching to H.I.T for a few weeks. There are many advancements you can make from the basic programme above to include supersetting burn out set's and more. For any more info feel free to email me at [gazjones24@hotmail.co.uk](mailto:gazjones24@hotmail.co.uk) or call in to Zone fitness.

**Q. Will I be out of control?**

**A. NO.** You will be awake and aware. You will leave feeling refreshed, relaxed and finally in **CONTROL**.

**Q. What is hypnosis?**

**A.** Hypnosis is simply physical relaxation coupled with Beta conscious activity. When these two occur hypnosis automatically happens.

**A**

**Q. Can anyone be hypnotized?**

**A. YES.** Everyone is hypnotizable.

**Q**

**Q. How does hypnosis work?**

**A.** For behaviour modification hypnosis simply allows the conscious mind and the subconscious mind to **AGREE**.

**Q**

**Q. How much can I expect to lose?**

**A.** Clients have experienced remarkable results 30lbs in 1 month to 125lbs in 1 year.

**Q. What is your guarantee?**

**A.** I'm so certain of your success that I personally guarantee it.

## Wirral Egg Run 2012

The 2012 event took place on Sunday 1st April 2012.

The route leaves New Brighton along our predefined 20 mile route and takes about 45 mins to travel to Clatterbridge.

The route took the bikers through Wallasey Village Road, Leasowe Road to Moreton Cross, Hoylake Road, through Meols to Hoylake, through West Kirby, Caldy, Thurstaston, Heswall turning left into Park Gate lane towards Thornton Hough and then on to Clatterbridge Hospital. It is estimated that the run will last up 3hrs from start to finish on a rolling basis.

More than £27,000 was raised through last year's Wirral Egg Run, which was then divided between a number of children's charities. Well done to all who donated and took part.

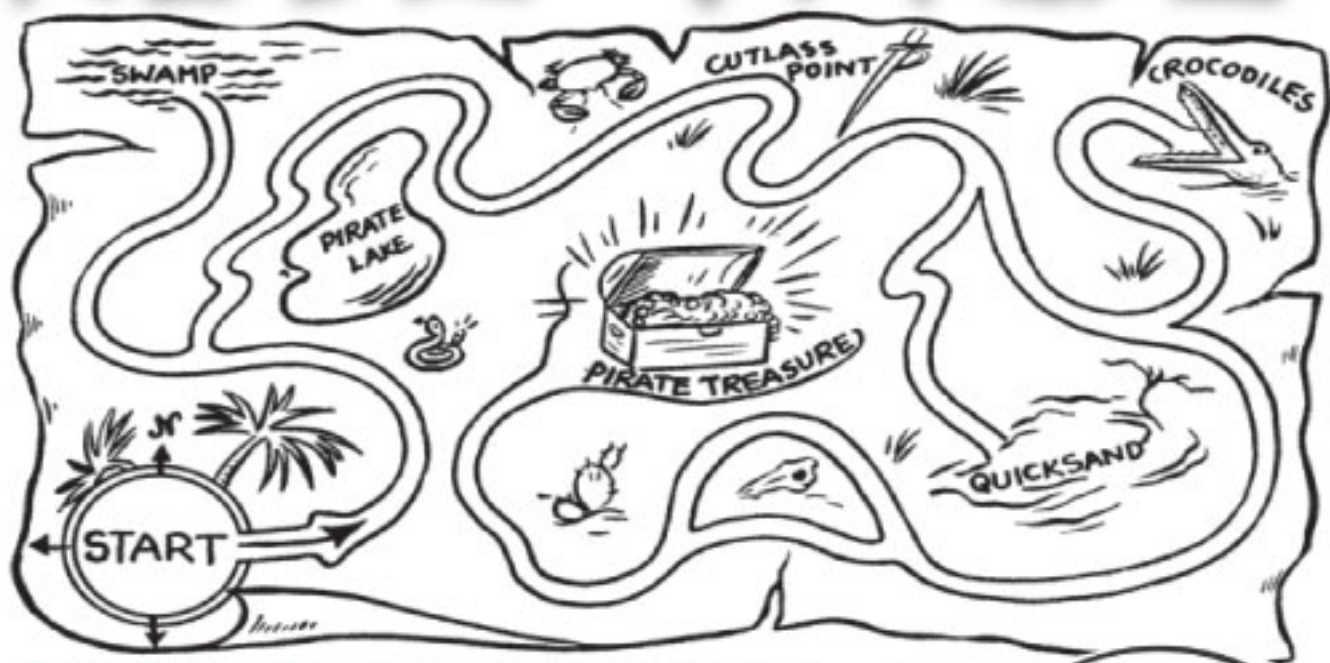

*Thank you for their kind permission for the use of their photographs to Mike Williams (Below) and Derek Hyamson (Right).*
